Cookie in a Jar Candle

What You Need

4786 Wax
3-4" Zinc Wick
Butterscotch and Mahogany Dye
Scent Hot Fudge Brownie and Vanilla
Pour Pot
Fork
Pie Plates
Wax Paper
16oz Jar
Grater

How To Make It

Chunk Wax: Melt 1/2 lb of 4786 wax in double boiler to 175F. Add 1 mahogany dye chip and stir. Add 20ml of hot fudge brownie scent and stir. Pour into foil pan and let cool. Break into chunks and set aside.

Crumbled Wax: Melt 1/2 lb of 4786 in a double boiler to 175F. Add 1/2 butterscotch dye chip and stir. Add 10ml of vanilla scent and stir. Let wax cool and stir until it looks like oatmeal. Scoop out and place on wax paper and let cool. When cool, break into small crumb like pieces. Set aside.

Grated Wax: Grate 4786 wax with cheese grater. Set side.

Solid Layers: Melt 1 lb 4786 wax in a double boiler to 175. Add 20mls of vanilla fragrance oil and stir. Put wick stickum on bottom of wick and place wick in center/bottom of jar. Pour melted wax into bottom of jar approximately 1.5" up jar. Let cool until set.

Add 2 chips mahogany dye chip and a dash of hot fudge brownie scent to the vanilla scented wax and reheat. Let the wax cool to about 160 and pour over first layer. Let cool. Layer crumble mix over chocolate pour. Pack down in place around the wick. Layer grated wax over crumble mix packing down around the wick as you go. Layer chunks over grated wax and trim wick to 1/4". Label the jar and add some fabric or raffia for decoration. Enjoy.
